Dear Madam:

Complying with your request of recent date, there is enclosed certified copy of all information on file in this office pertaining to a "Samuel Johnson", who served as a Wagoner from New Jersey during the period of the Revolutionary War:

Would advise a "Samuel Johnson" served in the Somerset County Militia, and while it is possible that both periods of service could have been rendered by the one man, nevertheless there is no corroborative evidence which would warrant compiling same into the one record for the one man.

In view of the foregoing, this man's record is given herein in full, in order to assist you in your search.

SAMUEL JOHNSON-

received Certificate No. 1099, dated May 10, 1784, signed by William Verbryck, for Lo;4:9, for the depreciation of his Continental pay in the Somerset County Militia.

Very truly yours,

Records of nineteen out of twenty-one children of Henry Banta have been found. Henry Banta (1718-1805) is said to have left a larger number of descendants than any other man in Kintucky. His eldest son, Hendrick, died in Pennsylvania just before his youngest son was born. When the babe was six months old, the widow was killed by the falling of a tree. The nine children left orphaned were cared for by their grandfather who took them to Kentucky. They were reared with his own very large family.

It seemed to be the custom in these early Dutch families to name a later son after an earlier one what had died. Hendrick number 19 in above list was probably born after the death of the eldest son and received his name.
